Date: 7 July 1998

Dear Graeme Ratten,

In good cooperation with you and your consultants, in particular with Ferdinand Woolderink and Bakker Lekkerkerk Holland b.v. we have developed a line-planning and efficiency control system for production.

With this system and the training of the use of the system by your consultants, we have made it more clear what the quantity and quality of the production lines and the efficiencies of those lines are.

You have succeeded in convincing our production organisation of the importance of efficiency and have given them the tools to improve this.

I will therefore gladly introduce your organisation and work methods to others.

Sincerely,

BAKKER LEKKERKERK HOLLAND B.V.

J. de Bruyne
