Dear Jimmy

Following the recent project carried out by Meridian at Park Contract Services Ltd, I would like to thank you and your team on behalf of the Management Team for providing an excellent service and delivering over and above your initial projections.

At the beginning of the project we were all extremely excited at the potential opportunities and benefits that had been identified for PCS. Throughout the project we were not disappointed and the feedback from all levels of staff within the business is extremely positive.

I personally feel that the professionalism and working practices adopted by Meridian are extremely effective and have provided PCS and it's staff with the ideal platform to take the Business forward in a more efficient and focused approach.

I would also like to thank Daniel Meere – Project Director, who was always enthusiastic and more than capable of dealing with all the difficult and complicated issues that were identified during the project.

Once again, on behalf of the team at PCS, I would like to thank you and the Meridian team and to wish you every success for the future.

Yours sincerely

Larry Millard  
**MANAGING DIRECTOR**
